

# vibrant blue oils

**BENEFITS:** Uniquely formulated to reduce inflammation and increase the vitality of the Prostate Gland. The prostate is a gland lies at the base of the bladder, surrounding the urethra. It produces semen and protects the delivery and fertility of the sperm.

**INDICATIONS:** A young man's prostate is about the size of a walnut. It slowly grows larger with age. If it gets too large, it can cause problems like:

**Benign Prostatic Hypertrophy (BPH)** — As men age, an abnormal overgrowth or inflammation of the prostate can block the urethra or the opening of the bladder which can lead to difficulties with urination. Also, the conversion of testosterone converts into Dehydrotestosterone (DHT) and estrogen increases. Both hormones are considered causes of BPH.

**Prostatitis** -- An inflammation or infection of the prostate mostly seen in men aged 20 - 50 due to chlamydia or bacteria from the urine which passes through the urethra and settles in the prostate. Men with healthy prostates do not experience this problem. Prostates that lack vitality are more susceptible to infection. Prostatitis is often caused by a depletion of zinc and enzymes (which sterilizes the urethra and protects the gland from infection) seen with increased sexual activity. Excesses in alcohol, coffee, and sugar can have the same effect.

## Application

**HOW TO USE:** Apply 1- 2 drops around the pelvis (the lowest part of your abdomen).

**WHEN TO USE:** To support optimal prostate health, apply first thing in the morning and before bed.

**INGREDIENTS:** Vibrant Blue Oils Body Balance Prostate blend contains a proprietary formulation of Sandalwood, Frankincense, Fennel, Dill Seed, Basil, and White Grapefruit in a base of fractionated coconut oil.

### PRODUCT TIPS:

- Helps alleviate night waking to go to the bathroom, painful or burning urination or painful ejaculation
