Kidney™
— EMOTION BALANCE —

BENEFITS: Promotes feelings of safety, strength and courage. Balances kidney emotions of fear, loneliness, paranoia and insecurity.

INDICATIONS:

The kidneys are two bean-shaped organs that filter blood and remove water -soluble waste products. The kidneys also regulate the balance of fluids in the body, blood pressure (by maintaining the salt and water balance) and the body's acid-alkaline balance (pH) by selectively filtering out or retaining various minerals and electrolytes.

In Chinese medicine, the kidneys are considered the seat of courage and willpower. They control the volume, composition and pressure of fluids in all the cells. Blood flows through the kidneys at its highest pressure, filtering out toxins and directing nourishing materials to where they are needed. Water is symbolic of the unconscious, our emotion and of that which we do not understand and that which we fear.

Feelings of fear and paranoia can be held in the kidneys impairing function. Vibrant Blue Oils Emotion Balance Kidney blend helps dispel fear, assist in feeling safe and bring about a balance of emotions.

AFFIRMATION: I release my fear. I welcome safety and courage.

Application:

Kidney

HOW TO USE: Apply 2- 3 drops over the kidneys (low back—align fist with bottom rib), back of neck, or around the outside of earlobes.

WHEN TO USE: Apply 2- 3 times daily. During periods of intense emotion, apply every 20 minutes.

INGREDIENTS:

Vibrant Blue Oils Emotion Balance Kidney blend contains Spruce, Pine, Cedarwood, Ylang Ylang, Frankincense in a base of fractionated coconut oil.

PRODUCT TIPS:

- Great for balancing paranoia, fear, loneliness and insecurity.
- Can help support bed-wetting, which psychologists have linked to fear and anxiety.

Emotion Balance blends are designed to acknowledge and release underlying emotions that can impede healing.
